

**Do you think that your child may need an adapted tricycle or bicycle?**

If you are interested to find out more, we are inviting you to contact your physiotherapist. She will be able to assess your child and see what exactly the need is. And from there, she will be able to tell you if adapted equipment is really the best choice to do. If it is the case, she will be able to suggest you different options of models of adapted tricycles or bicycles that could be appropriate for the needs of your child and your family.

If your child would benefit from adapted equipment and you are interested into a trial session, please inform your physiotherapist **in spring or early fall and ask to have your name put on the invitation list for the TRIAL SESSION**. The Physiotherapy Department organizes a trial session of adapted tricycles and bicycles only once a year. Physiotherapists send invitations only to parents from that invitation list.

**This ADAPTED TRICYCLES AND BICYCLES TRIAL SESSION is done here at school in October or early November**

Models are selected before the trial session according to the specific needs of children who have their names on the invitation list. Parents and children must be present for the trial session. Individual time is reserved for each family for the trial period as well as for discussion and suggestions.
