**Grand Total: 207 staff**  
**for a total population of**  
**598 students**

(based on the 2016-17 school year)

### Providing a Unique Program for Every Child

The low student-teacher ratio and specially designed programs in our classes are created to meet the unique needs of each student. The core academic curriculum is adapted to each child's level of ability. As important are the additional support services offered.

An individualized strategy is designed for each student's particular educational, social and developmental needs. Educators, occupational and speech therapists, physiotherapists, social workers and psychologists work together to ensure children are always learning and continually moving forward.

**Every step of the way, Summit School keeps its focus on "Awakening the Potential" of each individual student who passes through its doors.**
